

Business Operating Procedures

Conflict Minerals Policy Statement

Page 1 of 1

Procedure No: HRP-05

AP Racing is committed to ethical business principles and the promotion of human rights. This includes responsible manufacturing of our products and responsible sourcing of materials.

AP Racing requires its suppliers to share in this commitment and has established the AP Racing Supplier Code of Conduct which outlines the expectations of AP Racings suppliers in conducting business in a legal, ethical and responsible manner.

AP Racing Supplier Code of Conduct requires our suppliers to ensure that parts and products supplied to AP Racing containing tungsten, tantalum, tin and gold, are to be DRC Conflict-free.

DRC Conflict-free parts and products contain no metals derived from "Conflict Minerals" such that they directly or indirectly finance or benefit armed groups through mining or mineral trading in the Democratic Republic of Congo, or adjoining countries where human rights violations are alleged. In accordance with Section 1502 of the Dodd-Frank Reform & Consumer Protection Act, AP Racing is working with its suppliers to conduct due diligence and implement policies and procedures so that AP Racing may make proper and accurate disclosures and to enable our products to be DRC Conflict-free. Due diligence methods employed by AP Racing and our suppliers are based on those described in the Organization for Economic Cooperation and Development (OECD) Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas.
